

Sports premium projected spend: 2019-2020

For 2019/2020 academic year we will receive **£16,000** plus **£2,300** from numbers on roll from the Government and will continue to build on the improvements to our provision for PE and Sport

£3,250 will be spent on our affiliation fee to the Slough Sports Network (SSN).

This will enable our pupils to benefit from entering inter-school competitions in sports such as sports hall athletics, football, rugby and cricket.

Our affiliation will also provide us with links to: NGB established clubs and organisations to run programmes during and after school hours such as London Irish Rugby and health programmes such as 'Let's Get Going'

Our staff and volunteers will also be able to access CPD and NGB sports courses enabling them to improve the quality of our lessons and after school sessions.

£2000 of the funding made available to SSN will be spent on the coaching programme offered by the Slough Sport Network, which provides 72 hours of coaching to our pupils from Level 2 (or higher) qualified coaches. Our pupils will benefit from a wide range of sports including multi-skills, dance, football, netball, golf, tennis.

Each phase (yr 1&2, 3&4, 5&6) has the opportunity to attend a minimum of two clubs per week and we schedule our clubs to coincide with the SSN competitions calendar providing pupils sports specific coaching leading up to competitions.

£1,000 in the summer term is identified to be spent on providing **Top-UP** swimming and water safety at the local pool in Langley. Qualified swimming instructors from the pool will follow the guidance in the National Curriculum with the aim of the pupils achieving the KS2 target for pupils to swim 25 metres.

£6,000 will be allocated to staff costs at lunch times to facilitate structured lunch time activities

The remaining funds will be targeted at improving our break and lunch time provision and getting our pupils engaged in structured activities with a competition/challenge theme which will include specialist staff and resources.
